

Nottingham Castle Trust Web Accessibility Policy

This web accessibility information applies to the interactions you have with us online as Nottingham Castle Trust when you visit our website, access our services, or otherwise communicate with us through various channels including email and social media.

It is important to us that we interact with you in a way that is inclusive and accessible. At Nottingham Castle Trust we are committed to accessibility for all visitors when the Castle re-opens.

We are in the process of creating a new Castle website, which will detail all access information in relation to the Castle re-opening. This website will be available from August 2020.

The access pages on our new website will be continually updated, adding to our wide range of tools and information to ensure an accessible day out for all.

If you encounter any access issues with the existing Nottingham Castle Trust website, please do contact us.
